

## LINKS TO CALIFORNIA SCIENCE STANDARDS

### First Grade

#### **Life Sciences**

- 2.a. Students know different plants and animals inhabit different kinds of environments and have external features that help them thrive in different kinds of places.
- 2.c. Students know animals eat plants or other animals for food and may also use plants or even other animals for shelter and nesting.
- 2.d. Students know how to infer what animals eat from the shapes of their teeth (e.g., sharp teeth: eats meat; flat teeth: eats plants).

### Second Grade

#### **Life Sciences**

- 2.c. Students know many characteristics of an organism are inherited from the parents. Some characteristics are caused or influenced by the environment.

### Third Grade

#### **Life Sciences**

- 3.d. Students know when the environment changes, some plants and animals survive and reproduce; others die or move to new locations.
